| 2. | Ultratec Uniphone 1140 TTY |
|----|----------------------------|

A full-featured TTY, the Uniphone includes a bright 2-line display and a comfortable keyboard to make TTY conversations easy. Its modern, attractive design compliments any room or office. It is perfect for making Voice Carry Over (VCO) calls. With VCO, you speak directly to the other person and read their typed responses on the display. VCO calls can be made through a toll-free relay service, or directly between Uniphone users for absolute privacy. In a similar way, people who can hear but cannot speak can make Hearing Carry Over (HCO) calls. The amplified handset lets you adjust the volume to the most comfortable setting. The Uniphone 1140 answers calls with your personalized greeting, and takes TTY messages when you are unavailable. The 8k memory lets you save and review auto-answer messages, conversations and your personalized greeting. Ten speed dial locations let you reach frequently-called numbers with the touch of a button. It even includes specially marked keys to store emergency phone numbers.

AMPLIFIED TELEPHONES

5. Ameriphone Dialogue XL50 Amplified Phone

The Dialogue XL-50 comes with all the convenient features of the XL-40 and gives you even more amplification. The XL-50 increases the incoming sound by 48+ dB. That is over 200 times louder! Adjustable Tone Control lets you customize the amplifier for optimum word clarity. It makes similar sounding words crystal clear and easier to understand. Plus the amplifier can be set to turn on automatically or manually every time you lift the handset for your convenience. Extra bright ring flasher and super loud ringer (95+dB) with adjustable tone let you know when your phone is ringing. Audio output jack for connection to headset, neckloop or cochlear implants. Features include: missed call indicator lets you know that you have missed a call, "extension in use" indicator lets you know when the extension phone is being used, back lighted, bug buttons make dialing easy, hearing and "t-coil" compatible handset, 12 memory buttons for 1-touch speed dialing, desk or wall mounting, battery back up in case of power outage (battery not included).

Order # AM-XL50

Cost: \$ 99.00
S/H: \$ 10.00
Total: \$109.00

6. Star Plus 45

The Star Plus 45 from Krown not only amplifies the incoming voice by 45 dB, its advanced circuit design and electronic anti-feedback filter make words clearer and easier to understand without feedback or distortion. It also includes a 95dB loud ringer so that you'll never miss another call. The Star Plus 45 offers Caller ID and extra large buttons with high contrast graphics for optimum visibility and dialing ease.
